Jaytech, Inc. Celebrates 30 Years of Water Management Solutions

January marked the start of Jaytech, Inc.’s 30th year in the business of providing **water management solutions** to commercial and industrial facilities throughout the United States. All of us at Jaytech wish to express our thanks and appreciation to all the wonderful friends and customers we have worked with over the past three decades. We look forward to continuing to help you solve your water-related challenges.

Established in 1977 as a local boiler water treatment company based in Minneapolis, MN, Jaytech has steadily expanded our capabilities and, along with them, our consulting and service areas. Jaytech has maintained our mission of providing the latest technology in steam boiler treatments while expanding our focus to developing options for all water-using facilities. We are now able to offer you a wide range of **water management solutions** including:

- **Liquid chemical water treatments**
- **Solid chemical water treatments**
- **Consulting services**
- **Efficiency studies**
- **Chemical-free water conditioning**
- **Full laboratory capabilities**
- **Filtration options**
- **Biological testing**

As our product offerings and capabilities have grown over the years, so has the diversity of our customer base. We work in many industries and have had the opportunity to build relationships and provide management solutions to hospitals, schools, production facilities, industrial applications, ammonia refrigeration, and commercial facilities, among others.

Our geographical service area has grown, as well. Jaytech, Inc. currently consults, services, and provides water management solutions to facilities throughout the United States, including Alaska and Hawaii.

Helpful Links

The past 30 years have brought tremendous change to the water treatment industry. Jaytech has worked hard to stay in front of those changes, and we maintain our dedication to providing you with the latest proven technology.

We appreciate your business and loyalty and look forward to working with you as we begin an exciting new decade for Jaytech.
